† November – March Sustainable Bandwidth includes 56Kbps File Buffer at \$12.95 a month.

* Package Option VI comes with a 70% CIR

Up to five complimentary Email addresses are available with activation of service. Additional Email addresses are \$2.50 each a month.

We sell our Internet packages based upon their sustained data rate. This means that everyone on the network will get about **3Mbps Download & 1.5Mbps Upload** for purposes like surfing the web and small file downloads. The sustained rate will only affect continuous file transfers larger than the file buffer size.
